## History of Publications

Term	Vol.	Title	Published
Jan., 1929– Dec., 1947	1–16	化学研究所講演集 (The Reports of the Institute for Chemical Research)	Indeterminately
April, 1933	—	10 Jahre Institut für chemische Forschung (化学研究所創立十周年記念号)	—
March, 1949– Dec., 1949	17–19	化研講演集 (The Reports of the Institute for Chemical Research)	Indeterminately
March, 1950– Sept., 1952	20–30	化学研究所報告 (Bulletin of the Institute for Chemical Research)	Quarterly
Dec., 1951	—	The Commemoration Volume for the Silver Jubilee (化学研究所創立二十五周年記念号)	—
Jan., 1953 onwards	31 No. 1-	Bulletin of the Institute for Chemical Research (化学研究所報告)	Bi-monthly

## FOREWORD

The Institute for Chemical Research of Kyoto University was founded in October, 1926, and is celebrating its fortieth anniversary this year. The present volume is to commemorate the occasion. Two volumes had been published for the tenth and the twenty-fifth anniversaries, respectively, containing descriptions of the Institute's development down to 1951. So that in this volume is treated the period from 1952 to date.

During these 15 years the organization of the Institute has grown, and the scope of its scientific activities expanded. The number of the full-time researchers, which amounted to 138 in 1951, has increased to 169, including 19 full professors in contrast to 7 in 1951. In 1963 the graduate courses were created, and now 65 graduates are working for higher degrees. On the other hand, various up-to-date scientific instruments and facilities have been introduced to keep in step with the recent development of natural sciences, and they are greatly contributing to researches undertaken by not only the scientists of the Institute but those of other faculties of Kyoto University.

In accordance with the policy of Kyoto University to concentrate its five natural science institutes in Uji City near Kyoto, the Institute is to move there shortly. This will further promote cooperation and coordination of research among the sister research institutes of Kyoto University. It is hoped that the Institute for Chemical Research will continue to develop its role as a benefactor for advancement of scientific knowledge and welfare of mankind.

Finally, the members of the Institute take this opportunity to express their deep condolence to the lamented friends and colleagues who had made great efforts for founding and developing the Institute. To the staff of the Institute, who took part in the preparation of the present volume as well as to Prof. Shinobu Iwamura (Research Institute of Humanistic Sciences, Kyoto University) who assumed the trouble of reading the English MSS. are due my sincere thanks.

Sango Kunichika, D. Sc.  
Director

*October, 1966*
